

A home care package is a coordinated package of care and services to help you to live independently in your own home for as long as possible.

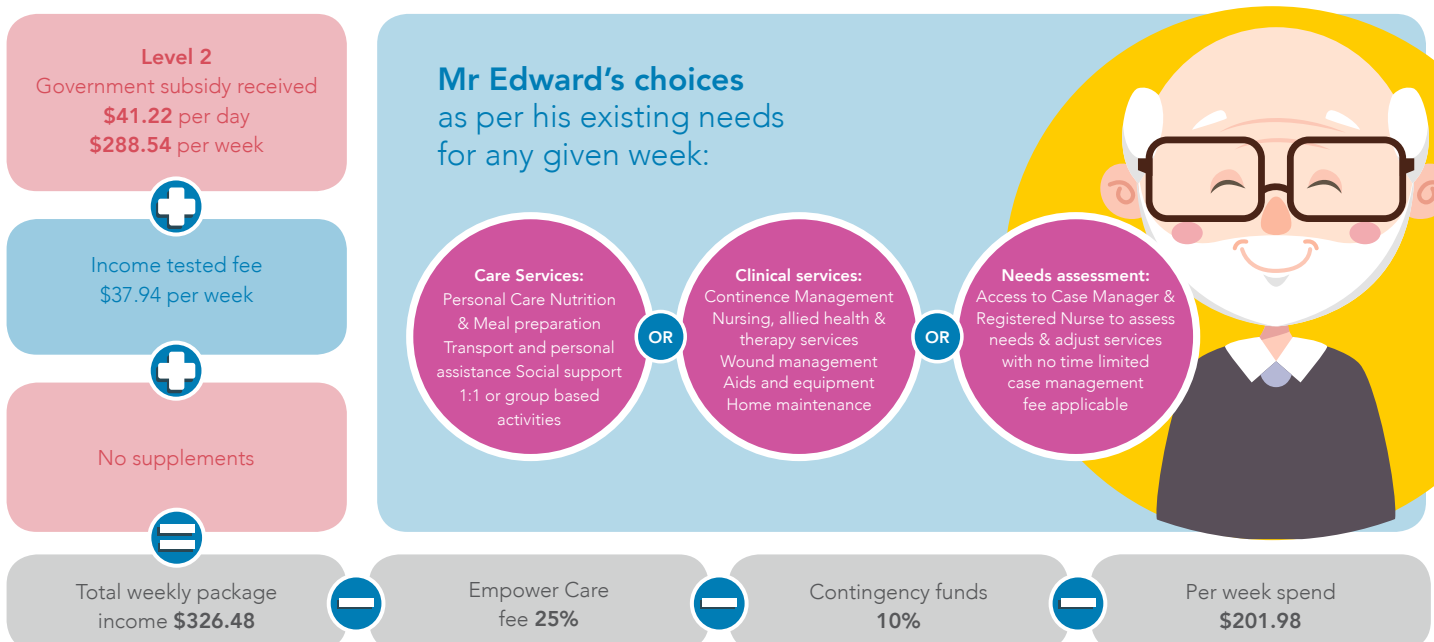

EXAMPLE ONE

Mrs Edward has been assigned a level 4 package and is approved to receive a Dementia and Cognition Supplement. She has been income assessed to contribute \$0 towards her care and decides not to pay the full Basic Daily Care Fee.

EXAMPLE TWO

Mr Edward has been assigned a level 2 package and is required to make an income tested fee (assessed by Centrelink) of \$5.42 and chooses not to pay the Basic Daily Care fee.

WHERE DOES THE MONEY COME FROM?

1. Government Funding - The majority of your home care is funded by the Commonwealth Government. Your Home Care Package is delivered according to your assessed care needs and allocated in levels (from 1-4) with higher levels receiving more funding.

2. Your Contribution - The Government allows home care providers to charge a Basic Daily Care Fee of up to about \$10.43 per day which is your maximum contribution. This helps cover the cost of your chosen care or assistance. Depending on your income, you may be asked to contribute to the cost of your care. This is known as an "income tested care fee" and is advised by DHS.

3. Supplements - You may also be eligible for subsidies or supplements depending on your situation. It's best to check with one of our Registered nurse or case manager, about the range of supports you may be able to claim.

EMPOWER CARE

Would you like to ensure you are getting the right services for YOU – at the right price? Take control of your future by choosing Empower Care to manage your Home Care Package for you.
