

DO YOU LIVE WITH HEART FAILURE?

Or do you live with and care for somebody with heart failure?

We are looking for volunteers to take part in an interview. We want to talk about the activities someone with heart failure carries out to manage their condition, additional support they would like to have, and their use of technology.

You may be suitable for this study if you:

- Are aged 18 years or older
- Have been diagnosed with heart failure OR you live with and care for someone with heart failure
- Can communicate in English
